VALUATION CERTIFICATE

To whom it may concern,

In my capacity of ships' valuer, I have today estimated the market value of

MV "WASA EXPRESS", IMO 8000226 to be EUR 9,500,000

The valuation is with a 5% more or less margin and is based on the vessel being charterfree, in class and able give delivery within 2 months.

Furthermore on the assumption that the vessels are in good order and in a condition in hull and machinery which is to be expected of vessels of their age, size and type, I am in the opinion – based on the available information and without sighting the vessels or their classification records – that the present market value of these vessels, as equipped, are approximately as stated above and cash on delivery. Our price assessment is furthermore based on a "willing seller and willing buyer" scenario.

The figures mentioned above reflect our opinion of the market value of the above vessel on the date of this valuation. No assurance can be given that such valuations can be sustained or are realizable in actual transactions.
